Our Role—

Supporting Critical Collaborative Inquiry

The Center will facilitate the district's Achievement, Community and Equity (ACE) committee in a collaborative inquiry process to *integrate equitable practices* in the district's improvement planning.

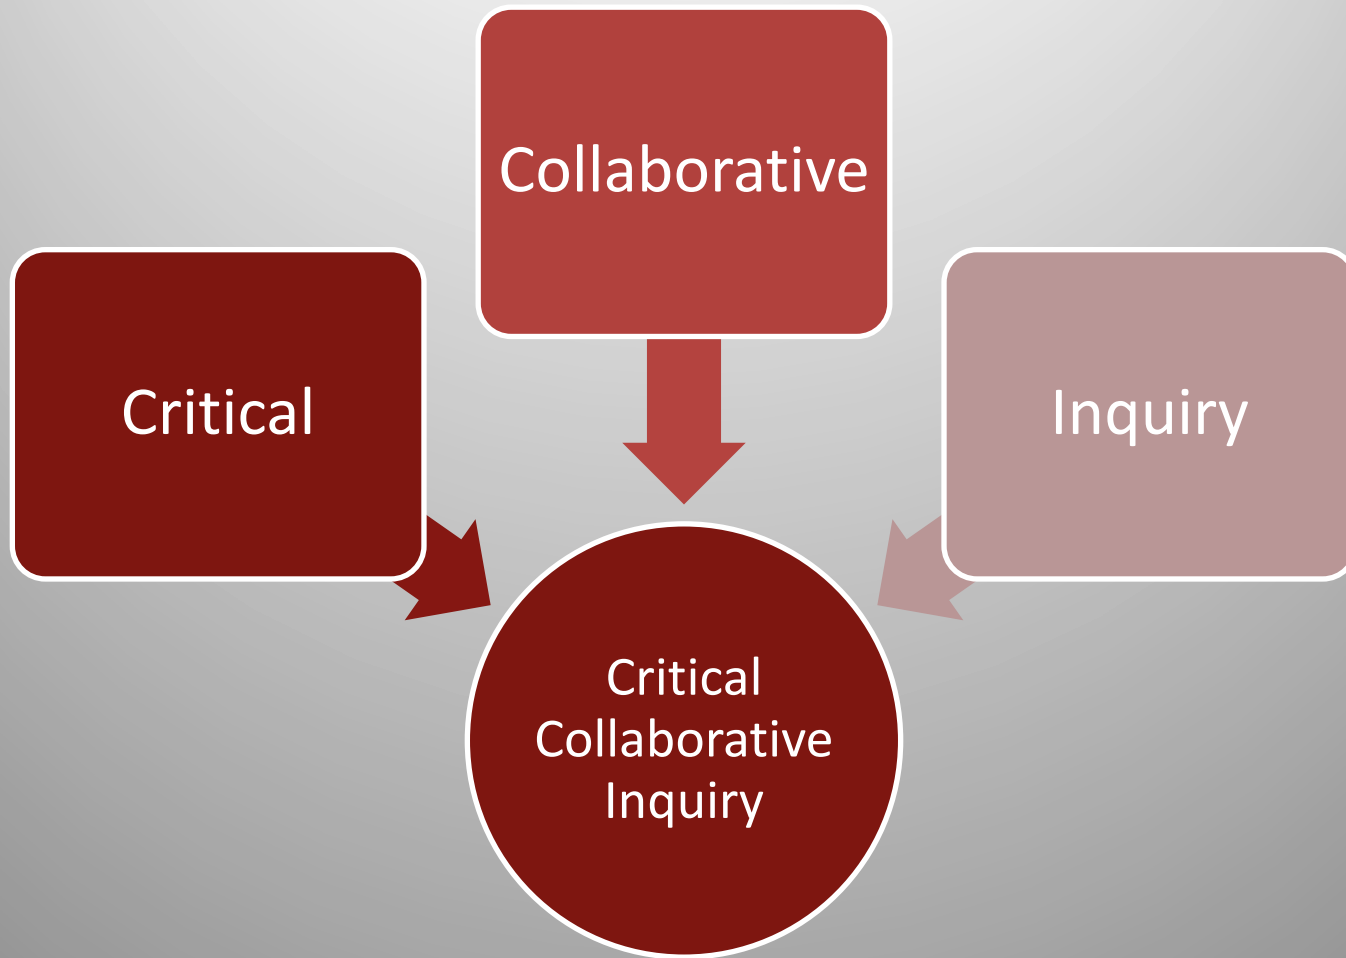

Collaborative Inquiry

Individual actions or development are interdependent with social, cultural, and historical activities (Rogoff, 2003). Thus, in order to understand individual learning that fosters collective transformative change, it becomes necessary to have better understanding of the situation in which individuals interact.

Collaborative inquiry provides a shared context for the process of on-going dialogue, identifying issues related to equity, proposing and testing solutions, and (de)constructing individual and collective knowledge. Rogoff (2003).

Breaking it Down

Supporting Inquiry

REFLECTION-IN-ACTION

- Occurs during
- Looks within
- Reshapes while activity is underway

REFLECTION-ON-ACTION

- Occurs after
- Looks back
- Engages in deep analysis when unexpected outcomes occur

REFLECTION-FOR-ACTION

- Looks at what has happened
- Looks at what is happening
- Looks at through different perspectives
- How
- Why

BUILDING CONSENSUS: Fist-to-Five

One Finger

Discuss certain issues-
suggest changes

Two Fingers

Would like to discuss
minor issues

Three Fingers

not in total agreement - let it
pass without further discussion

Four Fingers

Good idea-
I will work for it

Fist to Five

Fist

Block Consensus-
require changes for it to pass

Five Fingers

Great ideal
I will be one of the leaders for it

CREATING TRANSFORMATIVE CHANGE

Appleton & I—Opening Activity

I am in Appleton because...

I care about Appleton Area Schools because...

I am willing to contribute _____ to creating change in Appleton.

SHARED UNDERSTANDING 1

Educational Equity is ...

- **when educational practices, policies, curricula, resources, and school cultures are representative of all students, such that each student has access to, participate and make progress in high quality learning experiences, regardless of her or his race, sex, gender, ability, religion affiliation, national origin, linguistic diversity, or other characteristics.**

SHARED UNDERSTANDING 2

Transformative change towards educational equity is **systemic** change that **disrupts** and **dismantles** historical legacies of normative **assumptions, beliefs, and practices** about individual characteristics and cultural identities **that marginalize** and disenfranchise people and groups of people.

Looking to the past and living in the present to understand the future

What stories do the timeline tell?

Flashpoints

- Major events (local, regional, national)
- Employers coming and going
- Major bullying/harassment episodes
- Hot Spots (school & community)

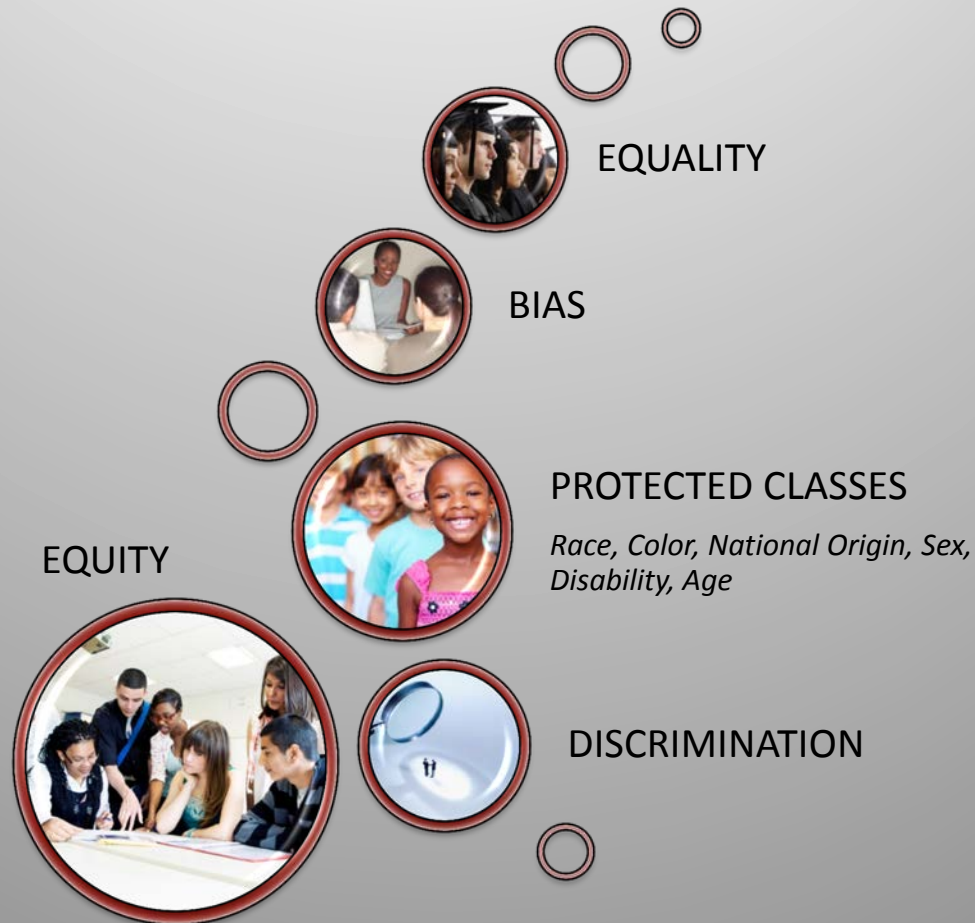

Gradual Change

- Demographics
- Laws
- Policies
- New programs or initiatives
- Economy
- Crime Rate

SHARED UNDERSTANDINGS FOR CHANGE

Goal Areas

Classroom Instruction

- Apply the skills, methods and strategies necessary to assure that classroom practices are free of discrimination and bias

School & Community Climate

- Strive to assure that students, staff, parents and community honor diversity in society by interacting in a manner that shows respect and dignity for all persons

Curriculum and Materials

- Assure that curriculum and materials are unbiased in their representation of gender, ethnicity and other difference included in the diversity of humankind.

Co- & Extra-Curricular Experiences

- Provide fair treatment to everyone in co-curricular/extra-curricular activities maintaining freedom from bias, stereotyping and harassment.

In what ways do our goals contribute to our shared vision?

Where are we in light of our vision?

GOAL 1:

Goal 2:

GOAL 3:

GOAL 4:

EMERGENT THEMES

Cultural Histories

The cultural practices adults and students bring with them

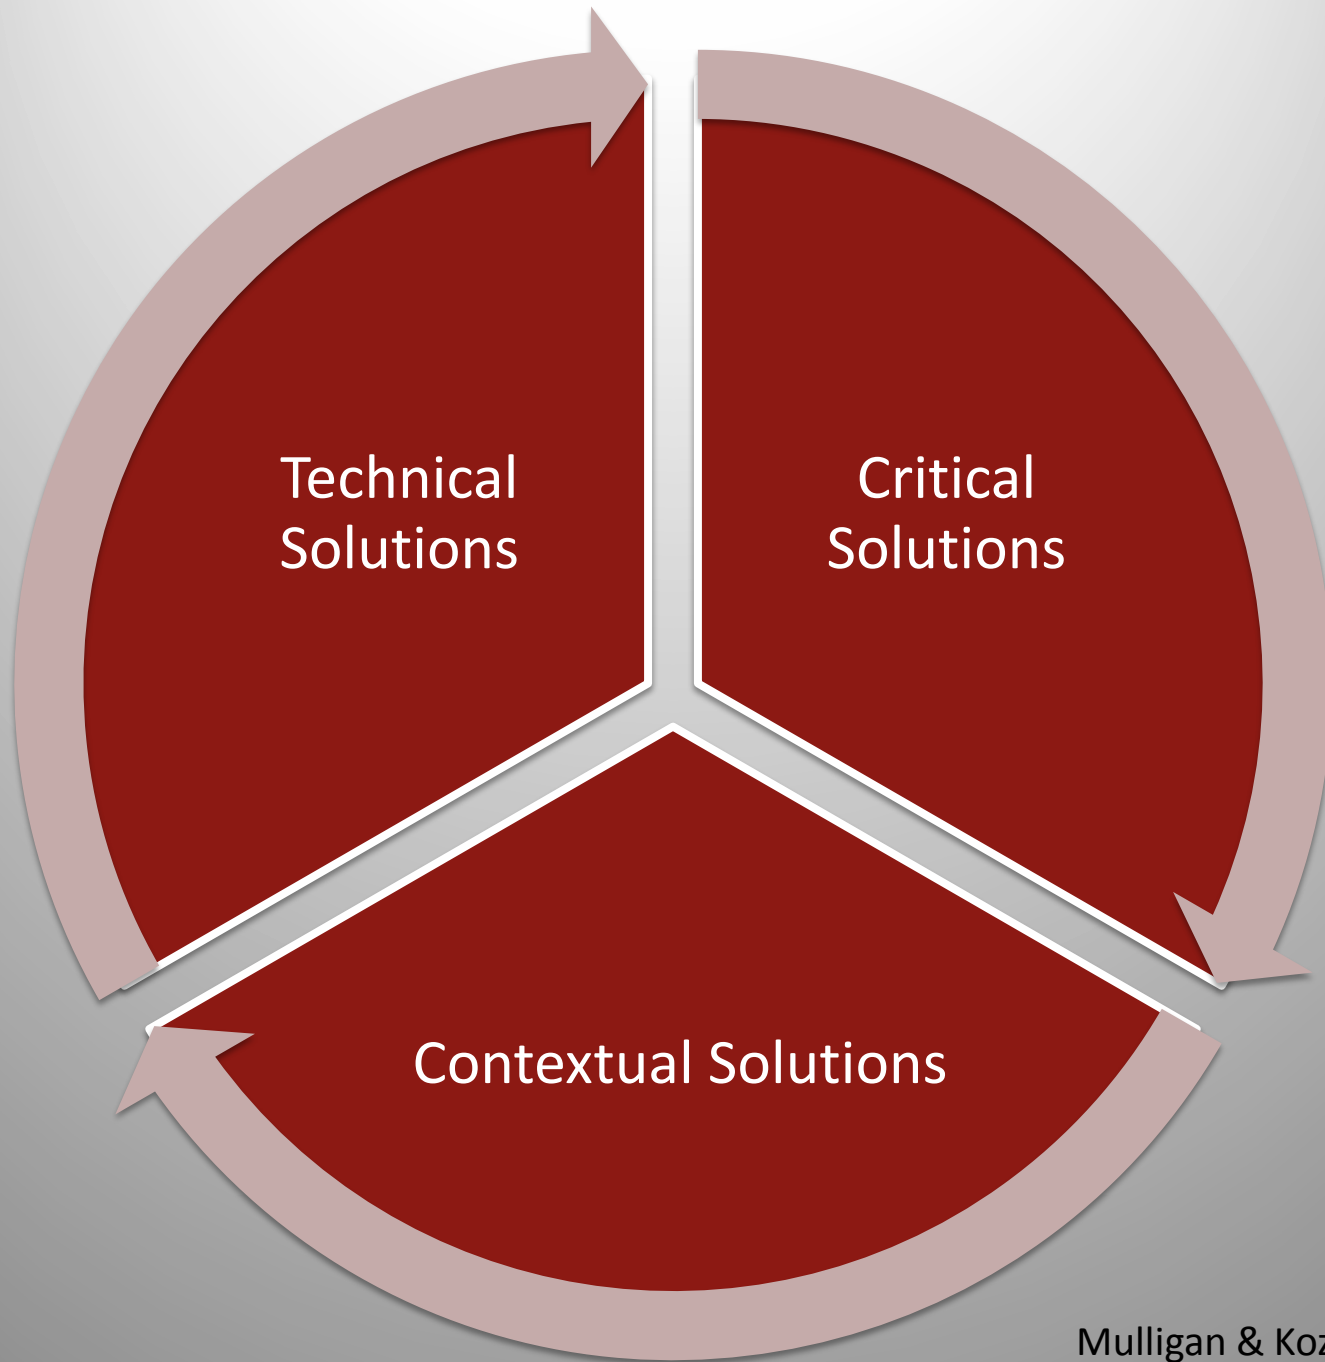

The cultural practices already associated with school and schooling

The Institutional Culture

The cultural practices constructed when people interact and work together

The Culture We Create

TRANSFORMATIVE CHANGE REQUIRES

Technical

- What are some **strategies** we could use?
- Which ones **address the problem**?
- Are they **research-based**?
- How will we know whether or not we have succeeded?

Contextual

- What are the **economic** strengths and constraints?
- What are the **cultural** patterns, practices, and histories?
- What educational **mandates** influence the landscape?
- What **demographic shifts** have occurred?
- What is the current **political climate**?
- What **assets** can the community bring to bear?

Critical

- To what extent do we view difference as strength or **difference** as deficit?
- Who has authentic **voice**?
- Who benefits from existing structures and who does not?
- How will we redistribute **power**?
- To what extent do decisions **center those on the margins**?

Scenarios

- Does it address a specific problem?
- Will we know if we've succeeded?

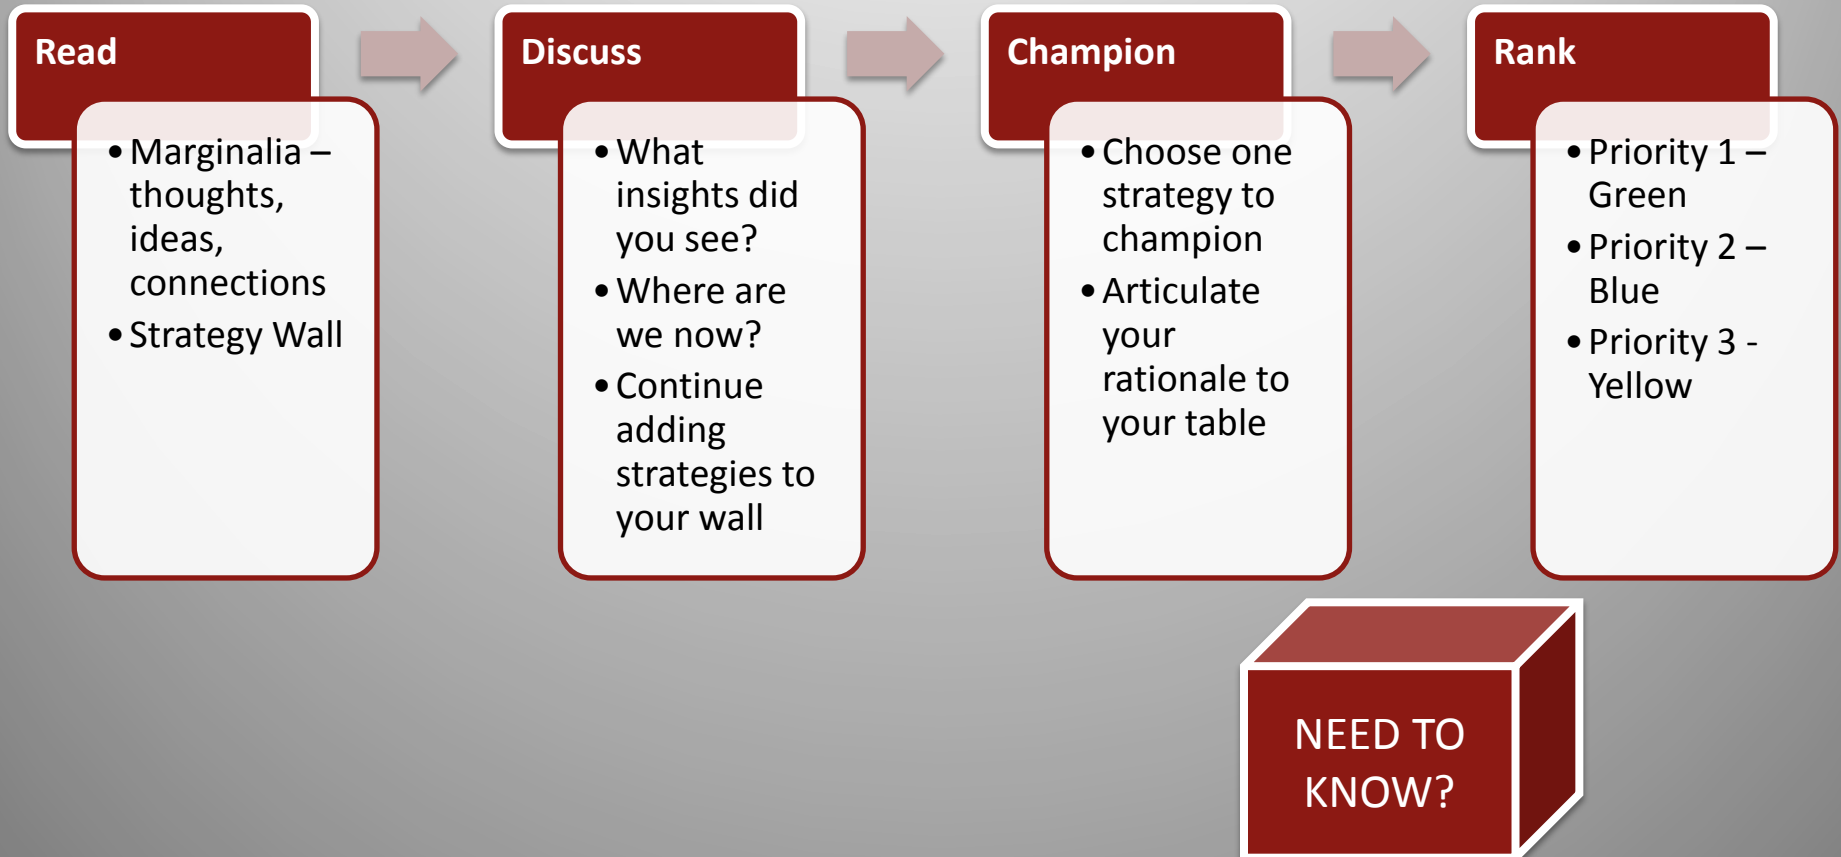

- Does it recognize and account for local patterns?
- Does it make use of existing structures and strengths?

- Does it give power and voice those who do not typically have them?
- Does it help to rid people of limiting beliefs/prejudices about themselves and others?

A THEORY *for* CHANGE

Tools for Social Change

Theories of Change are blueprints for social change and often can unearth assumptions about the links between problems, strategies, and long-term goals.

Action Plans break strategies down into doable steps and facilitate accountability.

Evaluation Plans help us to know what worked, with whom, and in what context.

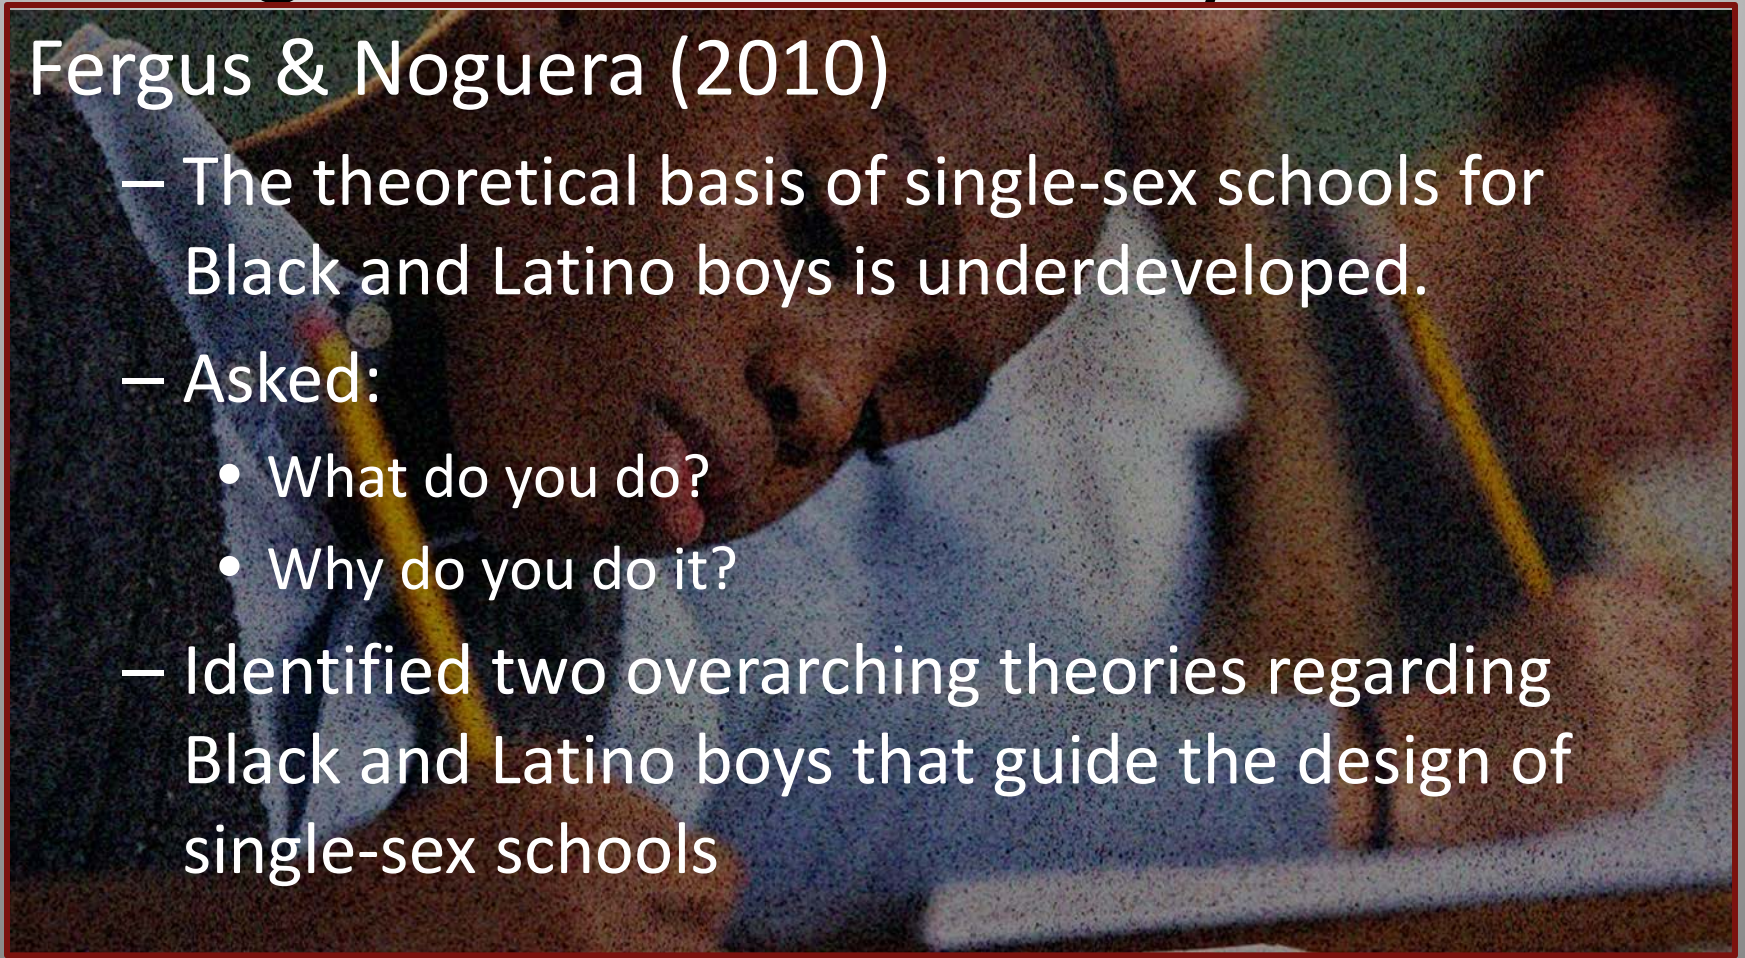

EXEMPLAR:

Single-sex Schools for Boys of Color

Fergus & Noguera (2010)

- The theoretical basis of single-sex schools for Black and Latino boys is underdeveloped.
- Asked:
 - What do you do?
 - Why do you do it?
- Identified two overarching theories regarding Black and Latino boys that guide the design of single-sex schools

ULTIMATE GOAL:

Substantial, Sustainable, Positive
Change for Children

The outermost semi-circle is dark red, the middle one is white with a dark red outline, and the innermost one is white with a dark red outline. These semi-circles are positioned to the left of a large white rectangular area that is divided into three horizontal sections by dark red lines. The top section is labeled 'LEVERAGE', the middle 'INFLUENCE', and the bottom 'IMPACT'.

LEVERAGE

- *Investment Strategies*
- *Public or Private*

INFLUENCE

- *Visibility*
- *Institutions, Partnerships, Policies, etc.*

IMPACT

A PLAN FOR ACTION TOWARD CHANGE I

ACTION PLANS

Based on a sound theory of action

Include strategies that are evidenced-based

Reflect the needs and assets of the local contexts

Anatomy of a Quality Plan

Detailed action steps

Strategies for supporting people to reflect on their cultural identities and the cultural histories and practices of their students, acquire new knowledge, skills and behaviors

Process for monitoring implementation

Process for monitoring plan effectiveness

Process for adjusting plan if needed

Plan for sustainability

To have an impact actions must ...

Lead to consistent change in adult practices

Mediate systemic changes

Affect classroom instruction and curricular decisions

Involve families and community members in meaningful partnerships

Developing an Action Plan

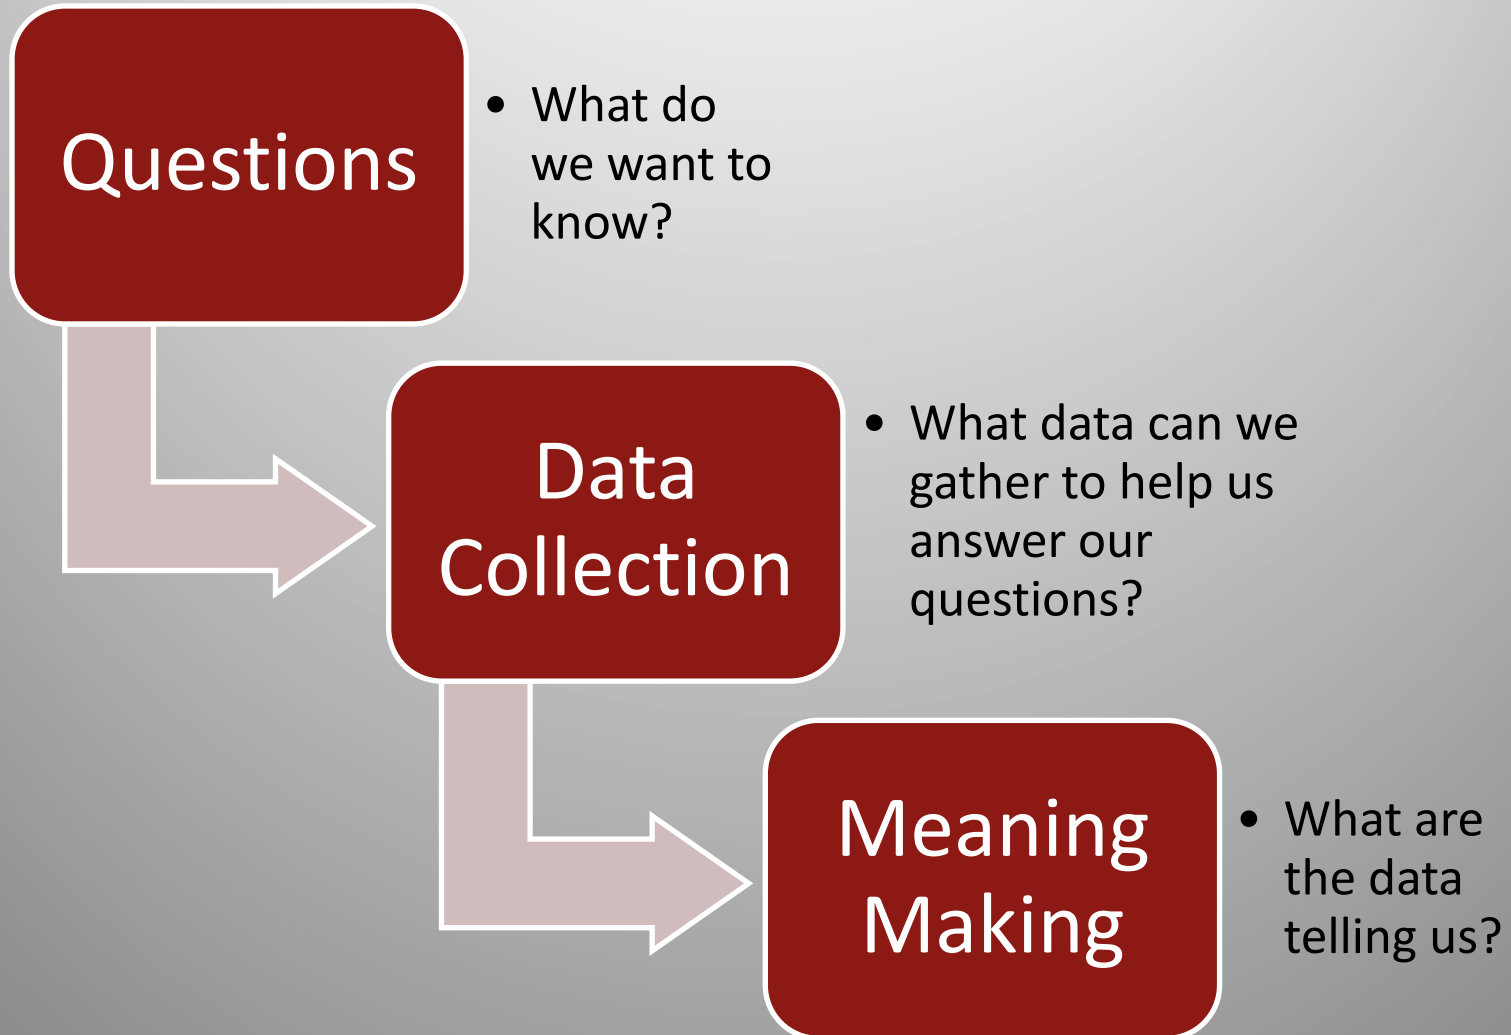

- What actions will occur?
- Who will carry these out?
- By when will they take place?
- What resources are needed?

Policy Review Guide

Policy: _____ Reviewer: _____ Date: _____
 Policy Goal: _____

For each item, please examine the policy and generate rationale statement(s). For each rationale statement, provide a solid body of data to support the claim you assert in the rationale statement (i.e., evidence). You may have several rationale statements for each item and several pieces of evidence for each rationale. Each piece of evidence should address ONE topic. NOTE: For some items, you will be asked to select a rating. In these instances, your rationale statement should clearly support and address the rating you select.

Educational Equity: What's It All About?

Start Time

November 27, 2012 - 3:30 pm

Learning Objectives

This introductory webinar addresses fundamental topics in educational equity. Participant objectives are to be able to:

- Articulate a strong rationale for advancing educational equity in your local setting;
- Explain the relationship between equity and equality; and
- Apply two or three strategies to begin to critically examine the extent to which your own practices promote equitable learning environments
